# Governance Skills Matrix

## Why is this important?

This skills check is a useful way of assessing the needs of the governing board, it is used to identify training needs, recruitment, assign committee members and succession planning. This model can be used to help identify any knowledge, experience, skills and behaviours the governing board still needs to deliver their functions effectively.

## How Does It Work?

No individual is going to have all the skills listed. The governing body is a team, and the purpose is to ensure that each skill below is covered by at least one of the governors/trustees around the table.

<b>Knowledge, Experience, Skills and Behaviours</b>	Level of experience/skill: rate on scale of 1 (limited) to 5 (extensive). Please tick. <div style="text-align: right; margin-top: 5px;"> </div>
